**Installed Modules (iPhone ๓๗๓ Choat)**

The following modules are currently installed in PocketSword (iPhone ๓๗๓ Choat):

- KJVA** (King James Version (1769) with Strongs Numbers and Morphology)
- MHCC** (Matthew Henry's Concise Commentary on the Whole Bible)
- Robinson** (Robinson's Morphological Analysis Codes)
- StrongsGreek** (Strong's Greek Bible Dictionary)
- StrongsHebrew** (Strong's Hebrew Bible Dictionary)
- StrongsRealGreek** (Strongs Real Greek Bible Dictionary)
- StrongsRealHebrew** (Strongs Real Hebrew Bible Dictionary)
- TBS71b** (TBS Thai Bible c1971)
- THSV** (Thai Standard Version 2011)
- TSK** (Treasury of Scripture Knowledge)
- ThSN** (Thai Study Notes 2011)
- tbsGloss** (Glossary of Thai Standard and Study Bibles [Pramuansap])
- tbsGlossSp** (Special themes of Thai Standard and Study Bibles [Naaphiset])

Upload & install raw zipped module: เลือกไฟล์ Submit

The format of the raw zipped module expected is the same format as can be found in the [Crosswire repository](#).

However, if you wish to be able to search in any modules installed in this way, you will need to create the clucene indexes yourself & place them in the correct location within the zip file.

If you haven't realised, this method of installing modules isn't for the faint of heart and is only suggested for those who know what they're doing. It is provided as a courtesy for Module Maintainers.

If the upload and install is successful, the new module will be added to the above list. If it fails, it will fail silently. This may be modified in the future if there are enough requests for improved functionality, but it is hoped and assumed that users will use
